

DIGITAL SUNSHINE COAST

Editorial Policy

June 2016

Editorial policy

The strategic intent of the Digital Sunshine Coast website is to provide high quality, relevant content which contributes valuable information on the topics of:

- Digital infrastructure and investment
- Digital capacity and skills
- Digital culture, innovation and leadership; and
- The adoption of digital technology solutions on Queensland's Sunshine Coast.

The following guidelines apply to all information published on the Digital Sunshine Coast website www.digitalsunshinecoast.com.au.

DIGITAL CHAMPIONS

We are looking to highlight people and businesses that are implementing innovative digital solutions and/or digital technologies. We are asking digital champions to become involved in the project to play an active role in furthering the skills and knowledge within the Sunshine Coast community.

Please contact us if you wish to be (or would like to suggest an individual/organisation) to be profiled as a champion on the Digital Sunshine Coast webpage.

EVENTS

Please advise us of any digital solutions and/or technology events of interest to those wishing to learn more about digital opportunities on the Sunshine Coast.

NEWS

We welcome all news articles that address digital and technology innovation such as business and community solutions, success stories and infrastructure, as well as national and international stories with application to the Sunshine Coast (with a direct and clear relationship).

NEWSLETTER

We encourage submissions for our newsletter on any topics around digital solutions and/or technology events

of interest to those wishing to learn more about digital opportunities on the Sunshine Coast.

TUTORIALS

Help us help the community. Become an author of a tutorial piece on our website. Your tutorial should ideally be a 'how to' guide on a digital topic and provide information that will broaden the reader's skills and knowledge, and benefit local business, industry and the broader Sunshine Coast community.

The topic you choose will be one in which you have expert knowledge. The tutorial should be no longer than 500 words (instructions and ideas) – including links to other information where applicable.

Tutorials may be moderated and peer reviewed prior to being uploaded to ensure we get the highest quality content.

PLAGIARISM AND COPYRIGHT

All submissions should be the original work of the author. Please do not reproduce work without appropriate permission. Use copyright materials only as permitted under copyright; and acknowledge any material that you do use.

Please submit all content for the Digital Sunshine Coast website through our *Contact Us* form at: <http://digitalsunshinecoast.com.au/contact>
